

## **UVic PEA Local Rep Update Nov 2025**

Over the past year, your local representatives met several times to discuss workplace developments and member concerns across campus. These meetings included collaborative sessions with the Labour Relations Officer and members of the local executive. In these meetings, reps shared updates from their respective areas, highlighting both ongoing challenges and positive developments. Our new Labour Relations Officer (Stephen) provided guidance on member advocacy, contract interpretation, and emerging HR matters, as well as updating the group on the upcoming bargaining with the employer.

Earlier this year, several new local reps participated in basic local rep training, equipping them with the knowledge of representation and supporting our members across campus.

We are actively seeking new local reps in the following buildings and units:

- Campus Security/Campus Services (Bookstore) and Child Care
- Health & Wellness Building
- Saunders & Saunders Annex

If you or someone in these areas is interested in becoming a rep, please reach out to me or our executive for more information.
