

# The Financial Impact of the COVID-19 pandemic on Canadians

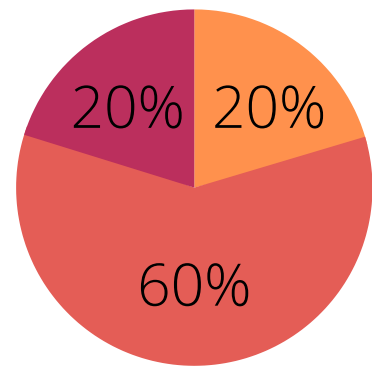

**18%** Have lost a significant portion of their income

**14%** Have lost their job

Many Canadians are worried about their financial situation

Very worried

Not worried

Worried

## Who has been most affected?

### Age

**Youth** (aged 17-24) reported the highest rate of job loss (21%)

### Province

Job loss was greatest in the **Territories** (44%), and lowest in Quebec (10.5%)

\* the sample size representing of the Territories is smaller relative to the sample sizes of the other Canadian provinces, so results should be interpreted cautiously\*

## The impact of job loss on mental health

Canadians who reported losing their job reported significantly **higher ratings of anxiety and depressive symptoms** relative to those who didn't lose their job
