    - Russell does not have the bandwidth for this
    - A schedule has been made, we just need peeps to setup and ~2 people to be there. We just need to book the space and get it ready and scuh
    - Before we use the barbecue we need to fix it considering there was a fire on top of the propane tank
      - [everybody gasps]

#### Equity Officer

- Done:
  - Sent out a bunch of emails
    - Focus group
    - UVic Ed workshops - at least one person who got the email is going, yay
    - EDI training - Tonight at 7:30!
  - Had EDI Committee meeting last night
    - Discussed the scavenger hunt event, suggestions:
      - Double check that everyone can get to the places
      - IF in teams, stick together!
        - Use a google form
        - Example, take a pic in the ESS lounge
          - This also works as a way to get people to know about the ESS!
      - Prize? Time requirement?
        - Maybe a winner for coolest photo, fastest, etc.
        - Giving participation prizes
        - Perhaps also giving out patches as a prize
        - Maybe also a pun for a prize (creativity prize?)
      - Suggestion: the ecole polytechnique plaque (just downstairs)

Council Members not in attendance:

●

- People generally agree that this is something that we should make known (not via a picture though)
  - Ie, what is something that it says on the plaque?
- Maybe not do it if the tone is comedic and in fun.
  - Also first years bad, do not trust them with this
- Goals:
  - Incident report forms - This is our highest priority right now
    - CFES VP Advocacy to get access the report forms from past conferences
    - Should be done in the next week or two
    - We were thinking of doing a google form as well as providing a template they can just fill out and email to the equity officer - any security concerns with google forms??
      - UVic does not support using google forms, but there is a surveymonkey thing that students can use. Abdul will link this
    - Confidentiality - was thinking of asking them to, and providing an example of, anonymizing the identity of anyone else involved in the incident until it is discussed face to face with them if this is something they want to do
      - Jessica does not know if it would be bad to have their name in writing
      - Abdul thinks making it confidential is good for making it not public, but making it anonymous could make it more difficult to effectively act on this.
    - Talked about EDI training
      - Reaching out to ECS discord mods and seeing if they are open to develop their own EDI training system for mods
      - Training as part of first year orientation?
      - Mandatory EDI training for *anyone* with office hours, even if they are just volunteers rather than exec or council members
        - Should we change EDI training to bystander training? Or both?
          - UVic does cover some bystander training, and there is a lack of EDI training.
        - We would need to figure out an order of operations since planning office hours is already kind of difficult
      - EDI discussion at meetings before events with form to fill out to be reviewed by equity officer
        - Sometimes it is difficult to get volunteers so making it more accessible is necessary
        - Make sure it isnt repetitive

UVic ESS Council Weekly Meeting  
Jan 25, 2022  
ESS Office and Google Hangouts

Council Members not in attendance:

- 

- More like asking tailored questions about the event itself
- The goal is that this is not facilitated and that rather there are prompts to be discussed as a team with answers to be submitted to the equity officer
  - This clarifies things a lot
  - Can we add an accessibility checklist?
    - Yes
- Russell suggests adding a video presentation to roll through before things?
  - Could be good, but the idea is that they have to actually form an answer and write it down to be reviewed
    - But we could make it work! Could also be good to have both a doc and a video. Maybe more engaging
- EDI quiz for those who miss the training to be reviewed by equity officer

- Discussion Points

- 

#### VP Communication

- Nothing major

- Guys look hes in person
- Mostly small things like updating the tutoring page, updating signal boost (channel on discord), updating the file for the UVIC Engineering and Computer Science logo, etc.
- Related to sweaters - Jessica got some feedback since people didnt want "Engineering and computer science". Maybe "ECS" instead? Also some people wanted the old logo
  - Everybody in council gets defensive about removing "Engineering and Computer science", and promptly dismisses the opinion while all constantly agreeing with each other.
    - If you want a visualization, imagine a stereotypical discussion engineers have about how great engineering is

#### VP Events
