Legend

Please visit the [University of Victoria Legend](#) for complete information.

Grading scale, comparative grading and academic standing

- The grading scale for the evaluation of course achievement at the University of Victoria is a percentage scale that translates to a 9 point grade point average (GPA)/letter grade system.
- The 9 point GPA system is the sole basis for the calculation of grade point averages and academic standing.
- Standardized percentage ranges have been established as the basis for the assignment of letter grades.
- The percentage grades are displayed on the official and administrative transcripts in order to provide fine grained course assessment which will be useful to students particularly in their application to graduate studies and for external scholarships and funding.
- Comparative grading refers to the mean (average) for the class and the number of grades in the class size (calculation). Comparative grading data may display on transcripts for undergraduate and graduate level courses except for those with the abbreviation LAW. The mean (average) includes percentage grades only; the size is the number of percentage grades in the calculation. Mean and size are displayed when the class size is six or more.
- N/A is displayed if comparative grading is not available. This may be due to the class having less than the minimum number of students, the student has a temporary grade, or less than 80% of the grades have been submitted.
- Effective 2008 Summer Session, an explanation of sessional standing will appear every session where course work has been completed.

Status

- Courses in a current session are shown with a final grade, if available, or with the notation "Continuing", "Continuing Full Session - First Half" or "Continuing Full Session - Second Half". Courses that have not yet begun will be denoted with "Registered."

Grade Point Averages

- Grade point averages that display on the administrative transcript are term, sessional and cumulative. Grade point average definitions are found in the university calendar. Academic standing is based on the sessional grade point average. Grade point averages are not calculated until all grades are final.
- For information on how grade point averages are calculated refer to [GPA Calculations](#).

Courses

- Effective 2008 Summer Session, audited courses, non-graded courses, section numbers and drop dates will appear.

Note

- The note column identifies details related to courses such as: course challenge, aegrotat, duplicate and mutually exclusive notations and fee-refund dates. Most courses that are dropped before the 100% fee reduction deadlines are not displayed.

Transfer Credit Information**Transfer Credit Details**

Type - Brief description of recognized credit.

Term - The term that Uvic received and/or accepted course for credit. Transfer credit assigned prior to September 2011 may refer to the academic year (September to August) that the course was completed at the sending institution and is assigned to the first term of the Winter Session.

Course - Assigned Uvic equivalent

- SUBJ 10L - The "L" refers to level credit assigned at the 100, 200 or higher level (i.e. Math 10L equates to Math 100 level transfer credit).
- SUBJ XXX - The "XXX" refers to block credit assigned.

Note - Includes notes about a specific course such as the notation for duplicate and mutually exclusive credit.

Grade - Letter grades are not assigned to transfer credit or included in sessional, cumulative or graduating GPA calculations. Grades may be taken into consideration for academic standing and/or specific program requirement purposes. Courses completed in partnership with another institution are treated in a similar way, except that grades are also considered in the graduating GPA calculation.

Credits - Total number of units awarded.
