

<b>Balle (2022) Ethical Concept</b>	<b>NSIR (Sadownik, 2025) Scale Application</b>
<b>Empathic Response</b>	<b>Item 5:</b> Validates the robot's perceived ability to recognize and mirror human emotions.
<b>Moral Status Attribution</b>	<b>Factor 1 (Kinship):</b> Explains why "humanizing" the robot leads to treating it as a moral peer.
<b>Social Agency</b>	<b>Item 2:</b> "Sometimes I stare at the robot"—indicates processing the robot as a social agent with moral presence.
<b>Ethical Safety</b>	<b>Item 7:</b> Measures the "Trust" required to be vulnerable (undressing) in front of a moral subject.
