Goal	Cyber Bullying Scale (CBS)	NSIR (Sadownik, 2025)
Measurement Target	Human-led aggression (victimization/perpetration).	Robot-led connection (comfort/safety).
Psychological State	Anxiety, depression, and social rejection.	Trust, kinship, and "sharing thinking".
User Role	Often the victim due to neurotypical norms.	An equal partner in a "judgment-free" zone.
Research Application	Quantify the level of social trauma in digital spaces.	Evaluate the success of a "safe" social alternative.
