Chojnicka & Wawer (2025) Study	NSIR Scale (2025) Application
Focus: Identifying ASD via "written narratives" (essays).	**Focus:** Measuring "Social Comfort" and "Kinship" with AI.
AI Role: An objective classifier of communication deficits.	**AI Role:** A "safe" social partner that can tell what a user is feeling (Item 5).
Goal: Cost-effective, large-scale screening.	**Goal:** Ensuring technology respects neurodivergent social preferences.
