

Table 1. Factor Loadings of the Submissive Behaviour Scale

Factor Loadings of the Submissive Behaviour Scale			
Item		Student group (N =332)	Clinical group (N = 136)
1. I agree that I am wrong, even though I know I'm not	.51	.66	
2. I do things because other people are doing them, rather than because I want to	.52	.62	
3. I would walk out of a shop without questioning, knowing I had been short changed	.46	.54	
4. I let others criticize me or put me down without defending myself	.63	.76	
5. I do what is expected of me even when I don't want to.	.41	.26	
6. If I try to speak and others continue, I shut up.	.58	.66	
7. I continue to apologize for minor mistakes	.56	.67	
8. I listen quietly if people in authority say unpleasant things about me	.38	.53	
9. I am not able to tell my friends when I am angry with them.	.61	.61	
10. At meetings and gatherings, I let others monopolize the conversation.	.65	.51	
11. I don't like people to look straight at me when they are talking	.56	.51	
12. I say 'thank you' enthusiastically and repeatedly when someone does a small favour for me	.39	.45	

Factor Loadings of the Submissive Behaviour Scale

Item	Student group (N =332)	Clinical group (N = 136)
13 I avoid direct eye contact	.59	.51
14 I avoid starting conversations at social gatherings	.58	.59
15 I blush when people stare at me	.59	.58
16 I pretend I am ill when declining an invitation	.37	.48
