The Freda Pagani Awards have been endowed by family and friends for graduate students in the Resources, Environment and Sustainability graduate program. As founder and director of the Sustainability Office at UBC, Freda helped to develop green building guidelines for campus facilities, initiated an energy management program, created the UBC Social, Ecological, Economic, Development Students Program (SEEDS), and developed a community energy and water plan. In addition, Freda led the creation of the University’s first ecologically friendly building, the C.K. Choi Building.

Congratulations Liz and Kieran!
