Simon Fraser University

FOURTH ANNUAL MEETING
May 23-25, Burnaby, British Columbia 2002

Cogito ergo incola aquilo occasus

NOWCAM 2002 — Program

THURSDAY, May 23

6:30-8:00PM Registration (West Mall, 3rd floor lounge)

7:00-9:00PM Poster Session I and cash bar (West Mall, 3rd floor lounge)

1. Jennie Park & Elizabeth Aylward: *Perception and imagination of faces (and houses) in children: An fMRI study*
2. Julia Reinholz & Michael C. Anderson: *The role of subjects' expectancies in the Think-No-Think paradigm*
3. Brice Kuhl & Michael Anderson: *Semantic satiation revisited: A new methodology for examining the effects of prolonged processing on a word's meaning*
4. Benjamin Levy & Michael Anderson: *The role of attention during encoding: Resolving interference*
5. Richard L. Bryck & Ulrich Mayr: *What is the role of the phonological loop in task-switching?*
6. Alissa Schactman, Helena Kadlec, Iris van Rooij, & Ulrike Stege: *Children's performance on the traveling salesperson problem*
7. Sonia Savelli & John Miyamoto: *Counterfactual and causal reasoning: What's the relationship?*
8. Joti Samra, Ronald Roesch, & William Koch: *The impact of depression on the Rey Memory Complaint Test II (RMCT-II)*
9. Arash Emamzadeh, Kevin Peters, & Sherri Hayden: *Psychopathological symptoms in cognitively-impaired-not-demented individuals*
10. Phillip E. Gander, Troy A. W. Visser, John J. McDonald, & Vincent Di Lollo: *Electrophysiological investigations of target processing during visual search*
11. Katja Borchert, Marie Ng, Carly Thurston, & Miriam Bassok: *Does equation format matter in equation modeling tasks?*
12. Carrie Cutler, Todd S. Woodward, Steffen Moritz, Jennifer C. Whitman, & Peter Graf: *An external source attribution bias is associated with delusions but not hallucinations in schizophrenia*
13. Martin L. Renaud: *Attributions of cause and effect: Investigating the interaction of the evaluation of processing, salience and intuitive theories*
14. Dave Holmes, Beat Meier, & Peter Graf: *Domains of prospective memory*
15. Yujiro Shimizu & Larry L. Jacoby: *Aging, memory, control and individual differences in estimates of recollection*
16. Amy Guthormsen, Miriam Bassok, & Lee Osterhout: *Is N400 amplitude an electrophysiological marker of the semantic alignment effect?*

FRIDAY, May 24

08:30-09:00 Registration (West Mall, 3rd floor lounge)

09:00-09:20 Welcome, opening comments (Bruce Whittlesea & Steve Lindsay)

09:20-10:20 Paper Session I: False Memory I (WMX 3520)

Chair: Deborah Connolly

09:20 - 09:40 Melissa Grinley & Elizabeth Loftus: *Effects of advertising on semantic and episodic memory*

09:40 - 10:00 Heather R. Collins & Richard E. Mayer: *The influence of interviews and imaginations on eyewitness testimony*

10:00 - 10:20 Leora C. Dahl & C. A. Elizabeth Brimacombe: *De-railing one's train of thought: How thought suppression affects eyewitness memory*

10:20-10:50 Break

10:50-11:50 Paper Session II: False Memory II (WMX 3520)

Chair: Ira Hyman

10:50 - 11:10 Peter J. Lee & Norman R. Brown: *The role of guessing on the forward and backward telescoping of news events*

11:10 - 11:30 Michelle M. Arnold & D. Stephen Lindsay: *I guess I knew it all along*

11:30 - 11:50 Michael Hoff, Norman Brown, & Melissa Forth: *Effects of generation on false recollection*

11:50-01:50 Poster Session II (West Mall, 3rd floor lounge) and Lunch (on-campus food outlets)

1. Sheri Rempel & Catherine A. Mateer: *Measuring word retrieval: Does speed matter?*
2. Joti Samra, Ronald Roesch, & William Koch: *Detecting malingered depressive symptomatology with the 21 Item Test*
3. Heather Knapp, Susan McBurney, & David Corina: *Lexical access in American Sign Language*
4. Antonia Mantonakis & Bruce W. A. Whittlesea: *The Mirror Effect: How do people know whether words are high or low frequency? They don't, but they can*
5. Melanie Harris & Glen E. Bodner: *The influence of predictive colour cues on remembering and knowing*
6. Nelson Aghostino & D. Stephen Lindsay: *Remembering remembering- part two: The investigation of the Forgot-it-All-Along effect using pictures*
7. Eden Epstein & Anthony Greenwald: *Perception of intelligence: A heavyweight concern*
8. Janelle Renfrew, Roger Graves, & Daniel Saumier: *Role of the left hemisphere in recognizing prototype faces*
9. Natala Nadeau, Angela M. Sickles, Andrea K. Titterness, Jennifer L. Younger, Christina Byrne, & Ira Hyman: *Trauma and the specificity of autobiographical memories*
10. Jennifer Whitman, Todd S. Woodward, Steffen Moritz, & Carrie Cuttler: *Inhibition of semantic activation in schizophrenia*
11. Jo Sargeant, Helena Kadlec, & Jody Bain: *Auditory perceptions in children with autism*
12. Kayo Inoue, Lee Osterhout, Mark Allen, & Judith McLaughlin: *Honorifics of Japanese: Is it syntax or pragmatics? Effect of explicit learning*
13. Emilie Parrish & Roger Graves: *Visual and auditory localization, attention and perception in developmental dyslexics*
14. Kristin Flegal & Michael C. Anderson: *Does verbal overshadowing affect motor memory?*
15. Jelena Ristic & Alan Kingstone: *Is it a car or a hat? Automaticity of orienting to gaze direction*
16. Todd S. Woodward, Elton Ngan, & Claudia Jacova: *The role of the cerebellum in position effects*

01:50-02:30 Paper Session III: Autobiographical Memory I (WMX 3520)

Chair: Debbie Giaschi

01:50 - 02:10 Laura Ellingson & Ira Hyman: *Flashbulb memories and childhood amnesia*

02:10 - 02:30 Rhiannon Ellis & Jonathon W. Schooler: *Plausibility and schematicity: Factors affecting suggestibility for early childhood memories*

02:30-02:50 Break

02:50 - 03:30 Paper Session IV: Autobiographical Memory II (WMX 3520)

Chair: Earl Hunt

02:50 - 03:10 Lisa Hagen, J. Don Read, & D. Stephen Lindsay: *Pseudomemory rating scales: A contrast and a comparison across studies*

03:10 - 03:30 Ryan D. Godfrey, Daniel M. Bernstein, Arienne S. Davison, & Elizabeth F. Loftus: *When familiarity alters autobiography*

03:30-03:40 Break

03:40-05:00 Keynote Address, J. Don Read: *From the lab to the great beyond: Generalizing basic memory research to other-world settings*

06:30 Dinner (Horizons)

SATURDAY, May 24

08:30-09:30 Continental breakfast (supplied by caterer in the West Mall, 3rd floor lounge)

09:00-09:30 Late registration (West Mall, 3rd floor lounge)

09:30-10:30 Paper Session V: Theories, Attitudes, and Stereotypes (WMX 3520)

Chair: Helena Kadlec

09:30 - 09:50 Anne Thissen-Roe & Earl B. Hunt: *Facets of student thinking: Are student errors the result of underlying theories?*

09:50 - 10:10 Jess Holbrook & Anthony G. Greenwald: *Unconscious associations regarding Greeks and drinking*

10:10 - 10:30 Mark A. Oakes, Anthony G. Greenwald, & Hunter Hoffman: *Targets of discrimination: The effect of race on detecting presence of weapons*

10:30-10:50 Coffee break (supplied by caterer in the West Mall, 3rd floor lounge)

10:50-12:10 Paper Session VI: Explorations Guided by the SCAPE Account (WMX 3520)

Chair: Mike Masson

10:50 - 11:10 Troy Chenier & Bruce W. A. Whittlesea: *The SCAPE framework and the Discrepancy-Attribution Hypothesis: An exploration of the aesthetic experience and the perception of beauty*

11:10 - 11:30 Colin M. DeFreitas: *A processing account of the subjective experience of unfairness*

11:30 - 11:50 Antonia Mantonakis & Bruce W. A. Whittlesea: *The creation of subjective experiences: Expectation, uncertainty, surprise, and resolution*

11:50 - 12:10 Andrea D. Hughes & Bruce W. A. Whittlesea: *Long-term semantic priming: A processing account*

12:10-01:10 Lunch (supplied by caterer in the West Mall, 3rd floor lounge)

01:10-01:50 Paper Session VII: Perception and Orientation (WMX 3520)

Chair: Glen Bodner

01:10 - 01:30 Iris K. Zemach & Michael E. Rudd: *Testing a model of lightness and darkness induction*

01:30 - 01:50 Maryam Allahyar & Earl Hunt: *Strategies for finding your way in virtual environments*

01:50-2:00 Closing comments (Bruce Whittlesea) **and plan for 2003** (all)
