

Token Test

Token Test (O. Spreen & A.L. Benton, 1969; modification by E. DeRenzie and L. Vignolo, 1972)

This test is designed to assess verbal comprehension of commands of increasing complexity. The test employs a set of 20 plastic tokens consisting of 5 colors, two shapes and two sizes. This test can be administered to both children and adults and both long and short versions of this test are available.

A complete test package includes: a long form manual of instructions, a short form manual of instructions, 20 colored tokens and 20 recording sheets.

Additional Long Form Manuals	\$15
Additional Short Form Manuals	\$15
Additional Sets of Colored Tokens	\$20
Additional Recording Sheets (set of 20)	\$20
Complete test	\$70

Shipping fees will be added to invoice, depending on location.
