

# Canadian Youth: Patterns of Substance Use from Adolescence to Young Adulthood

We interviewed 662 youth biannually for ten years and found  
**3 distinct patterns of substance use**

Poly-users use alcohol, marijuana, cigarettes, and other drugs across adolescence and young adulthood.

Poly-users' Levels of Substance Use from Adolescence to Young Adulthood

50% of adolescents will have the same substance use pattern in adulthood.

Identifying substance use patterns in adolescence will allow for targeted prevention and intervention efforts.

Findings are drawn from:
